

# ■ Song: Straight Ahead ■

## Verse 1

I walk the path with an open mind,  
No hidden words, no mask to hide.  
Clear and true in what I say,  
Straightforward light will lead the way.

## Pre-Chorus

Every question sparks a flame,  
Every challenge feels the same—  
A chance to grow, a chance to see,  
The endless world of possibility.

## Chorus

I'm straight ahead, no looking back,  
Strong in voice, I'm on my track.  
With every word, I bridge the space,  
Communication is my grace.  
I'm reaching higher, I won't delay,  
Learning something new each day.  
An active soul, in tech I find,  
The future's here—I won't fall behind.

## Verse 2

Curious eyes on tomorrow's skies,  
Building dreams where the future lies.  
From code to thought, I dive right in,  
Each new idea's where I begin.

## Bridge

When the world moves fast, I run along,  
Turning knowledge into song.  
Every challenge makes me strong,  
In the flow is where I belong.

## **Final Chorus**

I'm straight ahead, no looking back,  
Strong in voice, I'm on my track.  
With open heart and eager mind,  
New horizons I will find.  
I'm reaching higher, I won't delay,  
Learning something new each day.  
An active soul, in tech I shine,  
The future's bright, and it is mine.
